# AMNESTY INTERNATIONAL

Amnesty International is a movement of 10 million people which mobilizes the humanity in everyone and campaigns for change so we can all enjoy our human rights. Our vision is of a world where those in power keep their promises, respect international law and are held to account. We are independent of any government, political ideology, economic interest or religion and are funded mainly by our membership and individual donations. We believe that acting in solidarity and compassion with people everywhere can change our societies for the better.

Amnesty International is impartial. We take no position on issues of sovereignty, territorial disputes or international political or legal arrangements that might be adopted to implement the right to self-determination. Given this and our interest in highlighting state accountability, we organize our information on human rights in the world primarily according to the division of states that are accountable for the human rights situation on their territory.

This report documents key  
human rights developments at a  
national and regional level  
during 2025, as well as  
presenting a global analysis of  
ongoing critical human rights  
challenges. It includes entries on  
countries or territories whose  
human rights situation Amnesty  
International has monitored  
during 2025.

The absence of a particular  
country or territory does not imply  
that no human rights violations  
of concern to Amnesty  
International took place there  
during the year. Nor is the length  
of a country entry any basis for a  
comparison of the extent and  
depth of Amnesty International's  
concerns there. This report does  
not cover extensively the use of  
the death penalty as Amnesty  
International issues a separate  
annual global report on death  
sentences and executions.
